**Dolphin Entertainment** to receive financing for a slate of six tween and teen-targeted feature films in a new agreement with **Continental Entertainment Capital** (CEC), an affiliate of Citi. The financing will cover production and prints and advertising costs for the six movies to be produced and sold internationally by Dolphin Entertainment, and released domestically by a studio partner. The first feature film under the new financing pact is **Soul Surfer The Bethany Hamilton Story**, which is based on the true story of the female successful teen surfer who lost her left arm in a shark attack (five years ago today) and went on to become a pro surfer and an inspirational speaker. Dolphin Entertainment is best known as the producer of Nickelodeon's series Zoey 101 and Ned's Declassified School Survival Guide, as well as the Roxy Hunter movies, Gym Teacher: The Movie and the upcoming TV movie musical, Spectacular!
